## SUMMARY

---

I have just completed my Bachelor of Science Professional Software Development at Swinburne University of Technology. During this time I have been exposed to different technologies, development methodologies and paradigms. I have also been part of and been team leader of projects up to 10 people in the university environment.

Since the start of 2008 I am also a registered sole trader or contractor where I build small online business solutions for small companies. These include websites to three-tier web applications. This has given me the experience of starting projects from scratch by meeting with clients, creating designs and refining requirements to creating a finished product and ensuring it satisfies the client's needs.

I've also started developing for the mobile market, such as the iPhone, Google Android and Windows Phone 7. This is a new and rapid growing area which I'm very excited to be able to be a part of. I enjoy learning new technologies and the mobile market is the perfect place.

---

## EDUCATION

---

### **Bachelor of Science, Professional Software Development**

2006 – Jun 2010

*Swinburne University of Technology*

Specialisations:

- Enterprise .Net
- Web Programming

Overall score achieved is 74.48

Complete list of individual subject scores is available on request and on my website at <http://joostfunkekupper.com/resume>

Mar 2007 – Jul 2007

*Swinburne University of Technology*

- Creating and updating modules of the Swinburne website to Object Oriented PHP.
- Testing new functionality of the Swinburne website

---

## SOFTWARE DEVELOPMENT SKILLS

---

		<b>Level</b>	<b>Years of Experience</b>
<b>Languages</b>	C#	Advanced	4 years
	Java	Advanced	3 years
	Objective-C	Beginner	< 1 year
	Delphi	Intermediate	1 year
	PHP	Advanced	3 years
	Ruby	Beginner	< 1 year
	Javascript	Advanced	3 years
	Ant	Intermediate	< 2 years
<b>Web</b>	XHTML/CSS	Advanced	3 years
	JSP	Intermediate	1 year
	ASP.Net	Intermediate	1 year
	AJAX (inc. jQuery)	Intermediate	< 3 years
	XML	Intermediate	< 3 years
	Ruby on Rails	Beginner	< 1 year
	BPEL (Web services)	Intermediate	1 year
<b>Database</b>	MySQL	Intermediate	4 years
	Apache Derby	Beginner	< 1 year
<b>Development/ Project Tools</b>	IDE:	Visual Studio 2010/08, Eclipse, Xcode, Dreamweaver	
	Database:	MS SQL Server, Hibernate	
	Project:	JIRA, FogBugz, MS Project Pro	
	Integration:	Hudson, Subversion, CVS, Apache Ant	
	Other:	Instant Rails, BPELDesigner	

---

## GENERAL SKILLS

---

- Communication**
- Given numerous presentations at ObjectMastery about new and changed modules to the system.
  - Personal communication with teams overseas with ObjectMastery's sister company in the United Kingdom.
  - Working closely with clients by organising meetings at their locations.
  - Guest speaker at Melbourne University on the importance of Industry Based Learning (internships) for students.
  - Have represented the Professional Software Development course for 4 years at Swinburne open days.
- Team**
- Working in small to large teams (20 people)
  - Team leader of numerous university projects
  - Ensure that as a sole trader I am managing all my projects to completion.

---

## PROFESSIONAL MEMBERSHIPS

---

Member of the Golden Key International Honour Society

---

## INTERESTS

---

- Researching and gaining research experience in new technologies, both open-source and main stream.  
Currently familiarising myself with Google Android SDK, iPhone SDK and Windows Phone 7 SDK by developing small applications using APIs such as the Twitter API.
- Building and designing software for both online and offline projects.
- Sports, such as indoor soccer and squash.

---

## REFEREES

---

Upon request
